

QuickBooks for Windows Conversion Instructions

QuickBooks Windows 2013-2016

Web Connect

Introduction

As Financial One Credit Union completes its system conversion, you will need to modify your QuickBooks settings to ensure the smooth transition of your data. Please reference the dates next to each task as this information is time sensitive. To complete these instructions, you will need your NetTeller username and password for the Financial One Credit Union's online banking website.

It is important that you perform the following instructions exactly as described and in the order presented. If you do not, your service may stop functioning properly. This conversion should take 15–30 minutes.

Documentation and Procedures

Task 1: Conversion Preparation

1. Backup your data file. For instructions to back up your data file, choose **Help** menu > **QuickBooks Help**. Search for **Back Up** and follow the instructions.
2. Download the latest QuickBooks Update. For instructions to download an update, choose **Help** menu > **QuickBooks Help**. Search for **Update QuickBooks**, then select **Update QuickBooks** and follow the instructions.

NOTE: If multiple computers do not use the same QuickBooks data file, skip step 3. QuickBooks activities such as **Online Banking** cannot be performed in multi-user mode because of the way the activities interact with a company data file.

3. Switch to single user mode. For instructions to switch to single user mode, choose **Help** menu > **QuickBooks Help**. Search for **Switch to Single User Mode** and follow the instructions.

NOTE: If you are not using Register Mode, enable it for the conversion. You can change it back after the conversion is complete.

4. Enable Register Mode. (Classic Mode in QuickBooks 2014 and newer).
5. For instructions to enable Register Mode, choose **Help** menu > **QuickBooks Help**. Search for **Banking Feed Modes**, select **Bank Feeds Modes overview**, scroll down, and follow the instructions.

Task 2: Re-enable Side by Side mode (if necessary)

NOTE: If you prefer register mode, you are finished with your conversion. If you use the Side by Side mode (Express Mode in QuickBooks 2014 and newer) for online banking, you may now re-enable the mode.

For instructions to enable Side by Side mode (Express Mode), choose **Help > QuickBooks Help**. Search for **Banking Feed Modes**, then select **Bank Feed Modes overview**, and follow the instructions.

Thank you for making these important changes!
